

Clinic Visit Note -Gastroenterology

GI Associates of Boston | Dr. Elena Hartley, MD

Patient: Jane Doe | DOB: 1988-03-14 | MRN: 00142837

Visit date: 2026-03-08 Provider: Dr. Elena Hartley, MD Type: Routine follow-up

SUBJECTIVE

Patient reports overall stable symptoms. 2-3 formed stools/day, no blood x 6 weeks. Fatigue improving. Working full time. Tolerating mesalamine without GI side effects. Mild cramping 1-2x/week, self-limiting. Stress level elevated due to work.

OBJECTIVE

BP 118/74, HR 72, Weight 62 kg (stable). Abdomen soft, mild LLQ tenderness on deep palpation. No peritoneal signs.

ASSESSMENT & PLAN

UC in clinical remission -continue mesalamine 2.4g/day.

Repeat labs in 8 weeks: CBC, CMP, CRP, ferritin, Vitamin D.

Counsel on stress management -correlation noted between stress spikes and symptom exacerbation.

Continue gluten-free diet. Encouraged to increase soluble fiber tolerance as tolerated.

RTC 3 months.
